Notes: You'll see a few new faces in the list this month: Ren and Stimpy,

Earthworm Jim, and Reboot are now all available through us as we expand our

product line, as well as MTV's Beavis and Butthead, Aeon Flux, The Maxx and

The Head. There is also a group of repricings from CPM/USMC this month.

Speaking of CPM, their collaberation with Vanguard Media is finally

bringing out the Project AKo Hyperguide CD Rom this month: knowing them,

it should be pretty cool. Surprisingly, with all the product on the following

list, there are only 7 AD Vision titles streeting. No doubt they're

gearing up for this Summer.

JEFF'S PICK OF THE MONTH

It's really great to see Alakazam after all these years, but I admit

that

I'm not too typical a US customer. While I'm already off topic, I might

as well mention here that I listened to that Please Save My Earth CD that

we listed last month, and I must say that it's quite incredible ... a

definite buy! For this month, I'd say the neatest thing coming would

probably be the Ranma Digital Dojo Box Set. This huge pile of tape gives

you really the best of the Ranma series (not that there aren't great ones

after this) in one package plus something extra you can't buy seperately!
